

# Be Crocwise school booking form

In the Top End, it's essential to Be Crocwise. By understanding the risks posed by saltwater crocodiles and behaving appropriately around waterways, we can keep ourselves, our families, and our communities safe.

Be Crocwise presentations and displays are offered free of charge. Sessions typically run for 15–45 minutes, but if you require a shorter or longer presentation, please speak with a Community Engagement Ranger to discuss your needs. Presentations are usually delivered in person. If you require a digital or online delivery, please let us know.

Please complete all sections of this form. A Community Engagement Ranger will contact you to confirm your booking.
